

SQL DBA & BI Architect, Job #103321

Closing Date: Thursday, January 31, 2019 @ 11:59 p.m.

Starting Pay Range/Salary: M/\$42.77 - \$64.15

Regular Full-Time, FLSA Exempt Position

JOB SUMMARY:

The Seattle Housing Authority, a nationally recognized leader in providing innovative, affordable housing communities, is seeking to fill the position of SQL DBA & BI Architect within its IT Department.

BASIC FUNCTION:

Reporting to the IT Applications Manager, the SQL Server DBA and BI Architect's role is to strategically design, install, monitor, maintain, and performance tune production databases and implement data warehouses, data marts, and data stores while enduring high levels of data availability. This individual is also responsible for developing, implementing, and overseeing database policies and procedures to ensure the integrity and availability of databases and their accompanying software. In addition, will evaluate and select all infrastructure components such as software, hardware, database management systems, and networking capabilities.

MINIMUM QUALIFICATIONS: (Required Qualifications)

Formal Education and Certification:

Bachelor's degree in the field of computer science or equivalent field. 10 years or more hands-on work experience with SQL Server administration, SSIS/SSRS development and data visualization tools like Power BI or Tableau. Certifications in MS SQL Server are highly desired.

To Apply: If you enjoy providing excellent professional services and expertise in a fast-paced environment, we would like to hear from you.
